

AIR 1 is a great resource for the community in Texas where I have been supporting it. I have recently moved to an area where I no longer receive AIR 1 and am currently trying to get it broadcast in this area. I beleive that it benefits all communities that it is broadcast in. It is a positive radio station that encourages families, teens, and adults on a daily basis. Taking Air 1 off the air and replacing it by an LPFM broadcaster that played other programming will eliminate this positive aspect. Christian stations are not popular, but Air 1 has had international success. Replacing this station would be devastating to other countires besides the U.S. Air 1 is listener supported and raises money for many charities and ministries. Please keep Air 1 on the radio across the nation and the world
